# intro

To promote local tourism, I approached the challenge with the goal of attracting more people to visit my tiny town.

One key, upcoming event is the Boxing Day Dip which is a focal point with sign-up sheet links.

*\*\* Update: sadly this event has now been cancelled due to sea pollution level concerns.*

## how it started

Initially planned to focus on the annual Regatta Week event but delving into the Documentation, I quickly saw potential to make this the start of an ongoing project for myself.

## what did I choose

Highlighting local business to encourage supporting local suppliers and services was a key consideration when building out the About section.

SUPPORT  
= local =  
BUSINESS
